

Helios – Temperature Control Board

Replacement for Foxboro Board

The Solutions Company

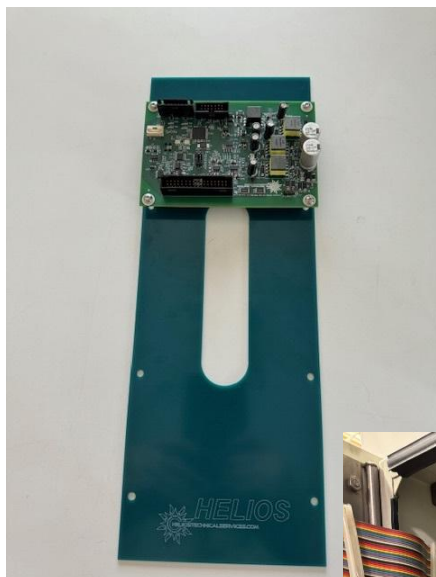

Helios Temperature Control Board

- Drop in replacement for OEM Foxboro board(s)
- 'Clock rate' is faster – for better response time
- Quad board contains all four zones (C, F, S, R)
 - Replace all 4 Foxboro boards with one board
- Single board can be addressed for any zone
 - Replace one Foxboro board
 - All C, F, S, R software on each board
- Calibrate TC's per OEM procedure
 - 0 and SPAN (full scale)
 - 0-1600 degrees

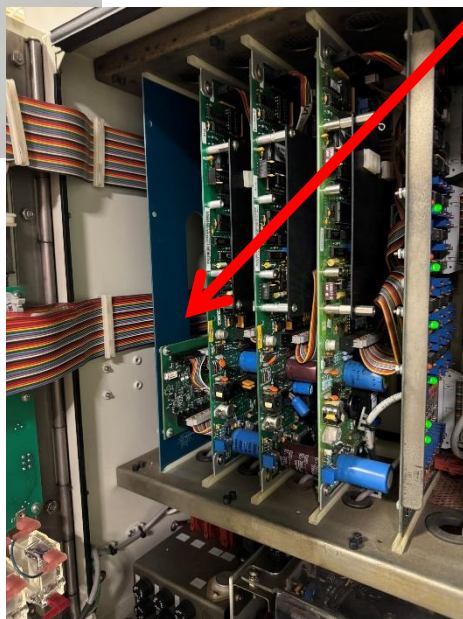

Same design as OEM, faster communication speed improves PID function

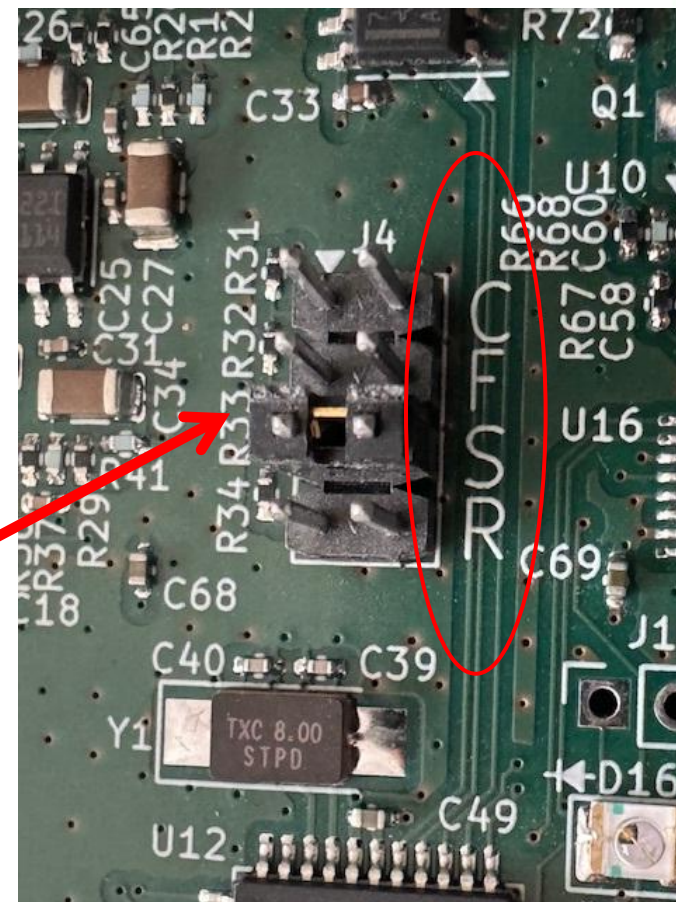

Single board can be addressed for any channel

- Replace one Foxboro board
- All C, F, S, R software on each board
- Single zone board and simple mount shown

All C, F, S, R software on each board, jumper to the zone desired
(Side jumper shown)

**Available in Quad board configuration –
all four zones on one Foxboro-sized
board**

**Available as single boards – can be
mounted to Foxboro-sized chassis**
